

NEWS RELEASE

Quality paramount as Copley Scientific achieves new standard

2 February 2009; Nottingham, UK: Copley Scientific has gained certification for its Quality Management System to the new ISO 9001: 2008 standard. The standard, which revises the previous ISO 9001: 2000, was published only in November last year.

Copley Scientific is a leading manufacturer of inhaler test equipment and a major supplier of systems for testing pharmaceutical solid dosage forms, including tablet dissolution, disintegration, friability, hardness and powder testers.

Technical Sales Manager, Mark Copley commented: "We are committed to delivering quality products and services to our customers. Continual improvement is an essential part of achieving customer satisfaction and we constantly strive to meet the expectations of the industries we serve. Operating a Quality Management System that satisfies the requirements of ISO 9001: 2008, is an important part of this approach and we are very pleased to be certified to the very latest standard."

As well as manufacturing at its Nottingham UK, headquarters, Copley Scientific has offices in Switzerland and operates a partnership with aerosol particle science experts MSP Corporation in the US. Its extensive range of equipment for research, development and quality control, is supported by a full validation and aftersales service.
